RETURN TO SCHOOL INFORMATION

All students, teachers, and staff must wear face coverings, unless medically excused. Neck gators are not allowed.

Students must wear face coverings and social distance on the bus to the greatest extent possible. Buses are sanitized between routes with special attention paid to high touch areas.

Arrival and dismissal procedures are set at each school. Upon daily arrival, students will have temperatures checked with a no-touch forehead thermometer.

Safe travel and passing directions were developed for each building. Students will not use lockers and each building will provide procedures for student belongings.

Social Distancing will be practiced at all times, with reminders and safe spacing indicated through floor decals and signage placed in each building's common areas. Students who exhibit signs of COVID-19 will remain in isolation rooms for parent pick-up.

Water fountains can only be used to refill water bottles. Students may bring labeled, refillable water bottles to school.

Frequent hand washing is encouraged with hand washing breaks scheduled for preschool and elementary schools.

Hand sanitizer stations have been placed throughout each building. Students will be encouraged to use them as they pass by.

Classroom seating will allow maximum space between students and all desks will face the same direction. Teachers will modify instruction to reduce student contact and maintain social distancing.

Food services will continue to provide breakfast and lunch in "Grab & Go" style. Lunch periods will be staggered. Students will be socially distanced and can remove face coverings while they eat.

Recess will be staggered with zones and boundaries between groups. Face coverings are required and students will wash their hands following recess. Play equipment will not be available for use.

Increased cleaning and disinfecting protocols are practiced in all buildings, with an emphasis on high touch areas. Ventilation systems have been cleaned and serviced.

Help keep all students and staff safe. Don't send your child to school if they are sick or if they have had close contact with anyone who has tested positive for COVID-19, been advised to quarantine, or exhibits symptoms of COVID-19. Parents must complete a daily Genesis health screening form for each child for each day they attend in-person instruction.

Piscataway Schools will continue to share updated information. Please check your email for regular communication, and also check the district website, www.PiscatawaySchools.org, for district-wide information, and school websites for school specific information.
